

The 70s voluminous hair is back with a bang and is seen everywhere from the movies to the ramps and even the glamorous red carpets around the world. We wanted you to be inspired by this sizzling hot trend and hence creative hairstylist- Seema Jerajani shows you how the bold and beautiful big hair is created.

Hair and Make-up: Seema V. Jerajani  
Model: Nikkisha  
Photography: Luv Israni

**BOLD**  
**bold**  
& Beautiful!

THE EASY HOW TO STEPS:

At first the Model's hair is crimped with an (crimping) iron. The hair is then backcombed starting from the crown following the sides of the head, hair from near the hairline are left open falling loose close to her face. Hair stuffing / padding is used on the crown to give the height or the 'Big effect.'

Lastly, the backcombed hair is then placed and combed over the hair stuffing and pinned at the back of the head. And Voila! The big hair is ready to flaunt!!!
