

SEEMA V. JERAJANI brings you two gorgeous looks from two radically different periods that you must try this season.

# Across eras

## Rockstar glam

This look was inspired by the shimmering golden rays of the sun on one side and the darkness of night on the other. The make-up, too, is in harmony with the concept, using pure gold foil on the eyelids and intense black for the eyeliner that is extended beyond the eyes à la Amy Winehouse.

## Georgian splendour

The Victorian outfit was the inspiration behind creating a soft romantic look with long curled tresses and a diamante tiara fitted on an asymmetric chignon. The make-up is elegant, complementing the regal look.
