

# Up(do) the ante

One style, two variations — Seema V. Jerajani shows you how to do the updo with élan.

## Bewitching bouffant

This style was inspired by the vintage look. I've created a big hairdo to match the many folds and textures in the beautiful olive green evening gown. The hair is backcombed in some sections and crimped in others. I've completed this 'do with different textures — matt and glossy. The added volume give extra height for a glam appeal. Make-up is subtle with defined eyes.

## Oriental charm

Model Avanti's solid bangs lend a geisha feel and inspired me to create a look that had Oriental elements. The two classic sleek donut hair buns with added shine, placed asymmetrically, create a high fashion look. The base for the make-up is pale, eyes are defined and the orange hue on the lips is to contrast the blue in the dress.

Seema V. Jerajani is the Creative Director and Proprietor of FUSIONS.
