

Celebrity Wedding Makeover

Seema Jerajani Created the look & hair Style for Tj Siddhu on her Special day

Tj wanted something elegant for her wedding; she wanted to look like a princess. Her lehenga was white with pink and crystal stone work. It had a 'royalty' kind of feel to it. So the hairdo had to match it. She wanted the 60's hair-do, like Sharmila Tagore in the old Bollywood films, very very classy. So we created a classic up-do, kept some loose curls on the top and some long sections at the bottom. We modernized a classic hairdo. Since Tj has good hair, the style was possible with her own hair without the use of hair attachments.

For the make up, it needed to match the overall look and the clothes, it was soft, natural and classy look. I used 5 eye shadows which were subtly blended; shades used were pink, pearl white, gold, brown and black.

She said "I really felt like a princess that day".
